

From Casserres to Vilanova de Sau

The stage from Sant Pere de Casserres to Vilanova de Sau is gorgeous. The beauty of the spectacular landscapes on the way from this point on as you pass through the Sau and Collsacabra area will captivate and enchant the walker.

It is a stage with quite a lot of ups and down: gentle climbs and sharp descents, with the added extra of pure rocky peaks. The path goes along old routes which give a feel of the territory, the culture and the sense that some things remain over time.
