

**From Taverteret to l'Esquirol (joins up with the other path, the Variant)**

The stage which runs from Taverteret to the small village of l'Esquirol is extraordinarily beautiful. The path goes along the rocky crags of Collsacabra offering spectacular views over the massif of Montseny and above all over Guillerics. On still, mild days, or after a strong wind, you can see the sea from the Pla Boixer look out point. Birds of prey are common in the zone, and it is also possible to find cows grazing in the meadows. Once you are over the rocky crag, you head up through European beeches until the village of Cantonigròs, well-known for its home-made products and the International Music Festival held every year in the third week of July. The downhill stretch to l'Esquirol follows the course of the Gorga (gorge), winding in places, and you will be able to visit the fabulous waterfall of La Foradada.

**Technical data**

**Length of walk:** 16.126m  
**Maximum altitude:** 1180m  
**Minimum altitude:** 673m  
**Maximum elevation:** 621m
