

From Vidrà to Vallfogona

The stage is a genuine mountain hike, reaching the highest point on all the route from Vic. It abounds in green landscapes and breathtaking views, but it is also full of history. Vidrà and Vallfogona were under the rule of the Milany lords for an eternity, and the terrain is rich in old paths, medieval bridges and towers and turrets. This stage takes us from one county and one province to another, but the land is the same - it has a common history - as we admire this amazing landscape, scene of so many noble legends.
