

From Vallfogona to Sant Joan de les Abadesses

This is a short stage the greater part of which is downhill. From Vallfogona to Sant Joan de les Abadesses the landscape is typical of Ripollès, but it also takes us back in history. Over the years Man has left a series of paths, farmhouses, fields harvested in the past and little details the walker appreciates the true value of. However, if there is one thing that truly captivates everyone it is the wealth of architectural heritage of these two sister counties.

Technical data

Length of walk: 6.125m
Maximum altitude: 1.120m
Minimum altitude: 770m
Maximum elevation: 277m
Ascent - Descent Gradient: -170m
